

Wyoming Pipeline Corridor Initiative

CO2 Sources

Industry type sized by capturable CO2 (MMTs)

-  Power Plants
-  Gas Processing
-  Trona
-  Cement Processing
-  Refinery
-  Chemical Manufacturing
-  CO2 Storage Projects

Wyoming Pipeline Corridor Initiative

-  Lateral Line
-  Trunk Line
-  Geologic Storage

The Wyoming Pipeline Corridor Initiative (WPCI) established corridors on public lands dedicated for future use of pipelines associated with carbon capture, utilization and storage (CCUS), enhanced oil recovery (EOR) and delivery of associated products.
